#### 3. Definition of related parties

Associated enterprises are those that depend on or control enterprises outside France.

Article 57 of the General Tax Code refers to the notion of dependence but does not define it; dependence can be either de jure or simply de facto. Moreover, Article 57 dispenses the tax authorities from having to prove the relationship of dependence or control in respect of profit transfers to enterprises located in a foreign State or territory outside France that has a preferential tax regime.

Administrative doctrine stipulates that:

1. De jure dependence is established if a French enterprise is dependent on a foreign enterprise, which is the case if the foreign enterprise holds a preponderant share of the French enterprise's equity or an absolute majority of the voting rights at its shareholders' meetings. The same holds true if, within the French enterprise, the foreign enterprise is empowered to perform functions that include decision-making, either directly or through intermediaries.

2. De facto dependence may either be contractual or stem from conditions underlying the dealings between the two enterprises (there is abundant case law illustrating this notion of de facto dependence).

#### 4. Transfer pricing methods

The OECD Transfer Pricing Guidelines.

## 5. Transfer pricing documentation requirements

The documentation requirements of the EU TPD Code of conduct is mandatory at the time of an audit for any French entity which belongs to a group which contains a legal entity whose annual turnover or balance sheet assets is/are at least € 400 millions (Article L 13 AA of the Tax Procedure Code).

Entities having dealings with related parties located in non-cooperative jurisdictions are subject to additional requirements (Article L 13 AB of the Tax Procedure Code).

In any case (whatever the size of the enterprise), Article L 13 B of the Tax Procedure Code implies an obligation for enterprises to co-operate with the tax administration at the time of an audit regarding transfer pricing documentation.

## 6. Specific transfer pricing audit procedures and / or specific transfer pricing penalties

There are no specific transfer pricing audit procedures.

There are however specific transfer pricing documentation-related penalties:

- in the event an enterprise fails to respond to a request for information under Article L 13 B of the Tax Procedure Code, it is liable for a flat €10 000 fine for each financial year covered by the request (II of Article 1735 of the General Tax Code);
- a failure to respond to a request for information under Article L 13 AA or Article L 13 AB of the Tax Procedure Code leads to a €10 000 fine, or to a maximum of 5% of the profits transferred under Article 57 (Article 1735 ter of the General Tax Code).

Dispute resolution under the Arbitration Convention may not need to be initiated and may be suspended if one of the enterprises involved is subject to a 'serious penalty' for the transactions giving rise to the profit adjustment (Article 8).

According to the unilateral declaration of France on Article 8 of the Arbitration Convention (*Official Journal L 225, 20/08/1990 P. 0010 – 0024*): "The term 'serious penalties' includes criminal penalties and tax penalties such as penalties for failure to make a tax return after receiving a summons, for lack of good faith, for fraudulent practices, for opposition to tax inspection, for secret payments or distribution, or for abuse of rights."

## 11. Other relevant information

Secondary and compensating year-end adjustments may result in double taxation. Two questionnaires launched by the EU Joint Transfer Pricing Forum (JTPF) in 2011 took stock of the situation prevailing in each EU Member State with respect to secondary and compensating year-end adjustments as on 1 July 2011.
